

# Making Sense of Pedigrees & Pedigrees that Make Sense

**Seminar by Kim Schive**

**Foxglove Shelties**

**Saturday, May 9<sup>th</sup> 2026**

**2 Hours After Second Show Judging in the Show Building**

Beautiful parents. Champion pedigree. Average puppies. If you've ever looked at a litter and thought, "This breeding should have worked better," this seminar is for you. In a relaxed, breeder-to-breeder style, we'll talk about why great dogs don't always make great puppies, how polygenic traits behave, and how thoughtful line breeding can improve consistency and predictability. While the focus is on Shelties, other breeders will find the concepts immediately familiar and useful.

**Including catered dinner with dessert competition!** \$65 per person. Please email Jen Milani at [maplecove@gmail.com](mailto:maplecove@gmail.com) or call 860-205-7644 to RSVP. Reservation due by closing date.

Dinner will be held 2 hours after the show, in the show building.

*See separate flyer for info about our dessert competition.*
